

## Short description „GSC-Project2010“(Global Stylewriting Connection2010)

**1step** i give you a tone from a color palette. Now you either mix the color or take spraycans to roll or spray your wall. The most **important** thing is that everybody takes **EXACTLY** the **same color**- otherwise this project will **NOT** work!  
The **height** of the wall has to be **EXACTLY 7,87 feet (2,4m)**. Please roll the wall in exactly 7,87 feet (2,4m) of height. The lenght of your wall is depending on the lenght of your **STYLE**. Please leave enough space left and right side of your style.

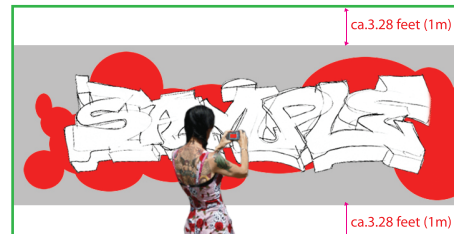

i will give you a tone you have to take to roll your wall !

**2step** now you can start to do your **PIECE**. Take your time with it and try to do a burner, take all the colors you want. Feel totally free and do your thing. **NO CHARAKTERS** are allowed - it is all about **STYLE** and **LETTERING**. Around your style there has to be **BUBBLES**.  
After the first **PIECE** was done, the next writer gets a picture (i think we have a **BLOG**) of the first **PIECE** and he **has to follow these BUBBLES !** Think allways about **we wanna do ONE HUGE wall** and i have to collage everything !!! Please follow these simple rules -otherwise our project will not be successful !

**nextstep** next thing you have to do is, taking a picture of your **PIECE**. Pictures should all be taken with a **5MP Digicam 2.560 Pixel x 1.920 Pixel resolution**. Take a **shot from the front and in height of ca.the middle of your wall**. Please check out that there is **NOT** only your wall on the picture- **there should be landscape Background, too ca.3.28 feet (1m) under and above your wall !**  
Check out that there is perfect light...

**laststep** finally your work is done...now i go and collage the whole thing and i hope the **RESULT** is a huge **GLOBAL WALL** with only **BURNERS** from close **GRAFFITIWRITERS** all around the **GLOBE**!  
I say it again, please follow the rules, otherwise we fail. At the End me and a friend of mine animate a Video what documents **OUR** project in a very interesting and cool way !  
**I WILL LET YOU KNOW ABOUT THE TIME TO START AND WHAT KIND OF COLORTONE WE USE FOR THE BACKGROUND.**
